26 July

11:00 - 15:30

Fossils and where to find them

This is a **family friendly** practical hands-on demonstration accompanied by an exhibition of fossils . Come and see some fascinating fossils and learn all about them from our local experts. The Harrow and Hillingdon Geology society will be bringing this exhibition to the Colne Valley Visitor Centre in Denham. The exhibition is open to all from 11am to 3.30pm and visitors are free to stay as long as they wish.
